– She could not straighten her leg out yesterday - after prayer – during the night much drainage came out and now she could walk.

# 10 months ago this baby was found in a garbage dump, aborted but alive –

The high school boy who found the baby, rescued it and brought it home. They were feeding it glucose water.

The boy, himself, had been abandoned by his own father and his mother who was a drunkard was caring for the baby while he would try to find work for the family.

They could not afford milk for the baby. The boy who is acting as father received Christ this day.
